

Washington, D.C. 20505

DDCI

21 January 1983

NOTE FOR: Director, Office of Program and  
Budget Coordination/ICS

FROM: EA/DDCI

25X1

Regarding the attached, John would like you to explore the possibilities of having a joint CIA/NPIC/NSA program, with each contributing a portion of the required \$4.1 million and dividing up the areas of investigation among them. He suggests that you determine if Evan Hineman has any available R&D funds that could be used for artificial intelligence. You should also see if NSA could contribute any money.
